PREVALENCE IN A UNIVERSITY CONTEXT

**Sexual harassment**
- 13.5% since starting university
- 5.8% in the past 12 months

**Sexual assault**
- 3.2% since starting university
- 0.6%* in the past 12 months

- Differently-described gender: 12.1%*

Experiences of sexual assault in the past 12 months:
- Female: 1.4%*

- Differently-described gender**: 4.9%*

Relative standard errors (RSE) were calculated for survey estimates. If the RSE was between 25% and 50% an * appears next to the estimate that indicates caution should be used with the associated estimate. If the RSE was above 50% or there were no respondents to an item an ** appears meaning the estimate is unreliable and not reportable.

Differently described gender includes students whose gender identity was not classified as female or male. Gender identity was derived using the ‘two-step method’ of cross-classifying responses to sex assigned at birth and current gender.
